Subject index

Acid media
Oxygen reduction in acid media: influence of the heat treatment on the FeNPc(1–2) isomer mixture impregnated on carbon blacks and active charcoals (Biloul et al.) 219

Active charcoals
Oxygen reduction in acid media: influence of the heat treatment on the FeNPc(1–2) isomer mixture impregnated on carbon blacks and active charcoals (Biloul et al.) 219

Alkaline cations
Effects of alkaline cations on polyaniline electrochemical synthesis (Aguirre et al.) 349

Amphiphilic pyrrole
A novel biosensor elaboration by electropolymerization of an adsorbed amphiphilic pyrrole–tyrosinase enzyme layer (Cosnier, Innocent) 361

Analytical spectroelectrochemistry
Theory and application of analytical spectroelectrochemistry with long path length spectroelectrochemical cells. Part I. Integral equation connecting the absorbance with the concentration distribution and its use in digital simulation for long path length thin layer spectroelectrochemical cells (Wanzhi et al.) 9

Anion adsorption
Adsorption of ClO_4^-, NO_2^- and NO_3^- on the (0001) face of a cadmium single crystal (Naneva et al.) 287

Bi-cubic scheme
Electrochemical reactions with protonations at equilibrium. Part XV. The $2e^-$, $2H^+$ bi-cubic scheme (Meunier-Prest, Laviron) 33

Cadmium chalcogenide
The roles of cesium ions in regulating photoinduced interfacial charge transfer at the n-type cadmium chalcogenide/ferrocyanide interface (Arent et al.) 295

Cadmium single crystal
Adsorption of ClO_4^-, NO_2^- and NO_3^- on the (0001) face of a cadmium single crystal (Naneva et al.) 287

Carbon black
Oxygen reduction in acid media: influence of the heat treatment on the FeNPc(1–2) isomer mixture impregnated on carbon blacks and active charcoals (Biloul et al.) 219

Carbon dioxide
Electrochemical reduction of CO_2 at Cu + Au electrodes (Kyriacou, Anagnostopoulos) 233

Cesium ions
The roles of cesium ions in regulating photoinduced interfacial charge transfer at the n-type cadmium chalcogenide/ferrocyanide interface (Arent et al.) 295

Chemisorption isotherms
Ethyl xanthate chemisorption isotherms and E_h–pH diagrams for the silver + water + ethyl xanthate system (Woods et al.) 179

Colloidal semiconductors
Photoelectrophoresis of colloidal semiconductors. Part III. Transient experiments on SnO_2 particles (Boxall, Kelsall) 75

Competitive ion transfer
Competitive transfer of H^+ and Li^+ ions through the water–1,2-dichloroethane interface mediated by 1,10-phenanthroline (Yudi et al.) 153

Conductivities
An application of the Lee–Wheaton conductance equation to mixed (symmetrical and asymmetrical) electrolytes in methanol at 25°C (Akrawi, Khalil) 209

Coniferyl alcohol
One-electron redox potentials for the oxidation of coniferyl alcohol and analogues (Hapiot et al.) 327

Copper
Electrochemical reduction of CO_2 at Cu + Au electrodes (Kyriacou, Anagnostopoulos) 233
Cross-exchange electron transfer reactions
A note on the evaluation of homogeneous cross-exchange electron-transfer rate constants (Phani, Sangaranarayanan) 321
Diaphragm cell
Nernst–Hartley evaluation of the interdiffusion coefficient of aqueous nickel sulfamate using new measurements of the equivalent conductances of the ions (Clunie et al.) 317
Digital simulation
Theory and application of analytical spectroelectrochemistry with long path length spectroelectrochemical cells. Part I. Integral equation connecting the absorbance with the concentration distribution and its use in digital simulation for long path length thin layer spectroelectrochemical cells (Wanzhi et al.) 9
Dimethylformamide solutions
Kinetics of electroreduction of tin(II) at mercury in dimethylformamide solutions (Manzini, Bulhões) 1
Electrochemical reactions
Electrochemical reactions with protonations at equilibrium. Part XV. The $2e^-$, $2H^+$ bicubic scheme (Meunier-Prest, Laviron) 33
Electrodeposited zinc
Hydrodynamic effects on the macromorphology of electrodeposited zinc and flow visualization: the effect of neutral salts and electric field (Jaksic, Komnenic) 127
Electron mediator
Electron transfer between an electron mediator-adsorbed glucose oxidase and an electrode (Kajiya, Yoneyama) 259
Electron transfer
Electron transfer between an electron mediator-adsorbed glucose oxidase and an electrode (Kajiya, Yoneyama) 259
Electroreduction kinetics
Kinetics of electroreduction of tin(II) at mercury in dimethylformamide solutions (Manzini, Bulhões) 1
Enzyme electrode
A novel biosensor elaboration by electropolymerization of an adsorbed amphiphilic pyrrole–tyrosinase enzyme layer (Cosnier, Innocent) 361
Ethyl xanthate
Ethyl xanthate chemisorption isotherms and E_h–pH diagrams for the silver + water + ethyl xanthate system (Woods et al.) 179
Ferrocyanide
The roles of cesium ions in regulating photoinduced interfacial charge transfer at the n-type cadmium chalcogenide/ferrocyanide interface (Arent et al.) 295
Glucose oxidase
Electron transfer between an electron mediator-adsorbed glucose oxidase and an electrode (Kajiya, Yoneyama) 259
Gold
Electrochemical reduction of CO_2 at Cu + Au electrodes (Kyriacou, Anagnostopoulos) 233
Gold electrode
Radiotracer study of the adsorption of a tripeptide on a smooth gold electrode (Horányi et al.) 311
Hydrodynamic flow
Hydrodynamic effects on the macromorphology of electrodeposited zinc and flow visualization: the effect of neutral salts and electric field (Jaksic, Komnenic) 127
Induced reactant adsorption
Induced reactant adsorption in normal pulse polarography of labile metal + polyelectrolyte systems. Part 2. Study of the current–potential relationship assuming potential-dependent adsorption parameters (Puy et al.) 271
Interdiffusion coefficient
Nernst–Hartley evaluation of the interdiffusion coefficient of aqueous nickel sulfamate using new measurements of the equivalent conductances of the ions (Clunie et al.) 317
Interfacial impedance
Potential dependence of the interfacial impedance of p-⟨100⟩ silicon in KOH (Abbott et al.) 355
Ion exchange
Determination of silver with polymer-modified electrodes (Lorenzo, Abruña) 111
Iron
Oxygen reduction in acid media: influence of the heat treatment on the FeNPc(1–2) isomer mixture impregnated on carbon blacks and active charcoals (Biloul et al.) 219
Isomerization
Electrochemically induced isomerization of 1,1,4,4-tetra- phenyl-1,2-butadiene to 1,1,4,

4-tetraphenyl-1,3-butadiene: an indirect self-protonation mechanism (Vincent, Peters) 63

Light scattering
Observation of photon correlations in scattering from a silver electrode (Gaigalas, Reipa) 99

Macromorphology
Hydrodynamic effects on the macromorphology of electrodeposited zinc and flow visualization: the effect of neutral salts and electric field (Jaksic, Komnenic) 127

Mean spherical approximation
Application of the mean spherical approximation to the estimation of single ion thermodynamic quantities of solvation for monoatomic monovalent ions in aqueous solutions (Fawcett, Blum) 333

Metal + polyelectrolyte systems
Induced reactant adsorption in normal pulse polarography of labile metal + polyelectrolyte systems. Part 2. Study of the current–potential relationship assuming potential-dependent adsorption parameters (Puy et al.) 271

Microelectrodes
Scanning electrochemical microscopy. Part 13. Evaluation of the tip shapes of nanometer size microelectrodes (Mirkin et al.) 47

Mixed electrolytes
An application of the Lee–Wheaton conductance equation to mixed (symmetrical and asymmetrical) electrolytes in methanol at 25°C (Akrawi, Khalil) 209

Modified microelectrodes
Electrochemical study of isopoly and heteropoly oxometallate film modified microelectrodes. Part 5. Preparation and electrochemical behaviour of a 2 : 18-molybdodiphosphate anion monolayer modified electrode (Wang, Dong) 245

Molybdodiphosphate anion
Electrochemical study of isopoly and heteropoly oxometallate film modified microelectrodes. Part 5. Preparation and electrochemical behaviour of a 2 : 18-molybdodiphosphate anion monolayer modified electrode (Wang, Dong) 245

Monovalent ions
Application of the mean spherical approximation to the estimation of single ion thermodynamic quantities of solvation for monoatomic monovalent ions in aqueous solutions (Fawcett, Blum) 333

Morphology
Some effects of cell dimensions on zinc electrodeposits (Trigueros et al.) 165

Neutral salts
Hydrodynamic effects on the macromorphology of electrodeposited zinc and flow visualization: the effect of neutral salts and electric field (Jaksic, Komnenic) 127

Nickel sulfamate
Nernst–Hartley evaluation of the interdiffusion coefficient of aqueous nickel sulfamate using new measurements of the equivalent conductances of the ions (Clunie et al.) 317

Oxidation
One-electron redox potentials for the oxidation of coniferyl alcohol and analogues (Hapiot et al.) 327

Oxometallates
Electrochemical study of isopoly and heteropoly oxometallate film modified microelectrodes. Part 5. Preparation and electrochemical behaviour of a 2 : 18-molybdodiphosphate anion monolayer modified electrode (Wang, Dong) 245

Oxygen
Oxygen reduction in acid media: influence of the heat treatment on the FeNPc(1–2) isomer mixture impregnated on carbon blacks and active charcoals (Biloul et al.) 219

Phenanthroline
Competitive transfer of H^+ and Li^+ ions through the water–1,2-dichloroethane interface mediated by 1,10-phenanthroline (Yudi et al.) 153

Photoelectrochemical detection
Application of pulsed photoelectrochemical detection (Barisci, Wallace) 195

Photoelectrophoresis
Photoelectrophoresis of colloidal semiconductors. Part III. Transient experiments on SnO_2 particles (Boxall, Kelsall) 75

Photon correlations
Observation of photon correlations in scattering from a silver electrode (Gaigalas, Reipa) 99

Phthalocyanines
Oxygen reduction in acid media: influence of the heat treatment on the FeNPc(1–2) isomer mixture impregnated on carbon blacks and active charcoals (Biloul et al.) 219

Platinum(110) surface
Stability and electrochemical properties of reconstructed Pt(110) (Michaelis, Kolb) 341

Polyaniline
Effects of alkaline cations on polyaniline electrochemical synthesis (Aguirre et al.) 349
Polymer-modified electrodes
Determination of silver with polymer-modified electrodes (Lorenzo, Abruña) 111
Potassium hydroxide
Potential dependence of the interfacial impedance of p-⟨100⟩ silicon in KOH (Abbott et al.) 355
Potential dependence
Induced reactant adsorption in normal pulse polarography of labile metal + polyelectrolyte systems. Part 2. Study of the current–potential relationship assuming potential-dependent adsorption parameters (Puy et al.) 271
Protonations
Electrochemical reactions with protonations at equilibrium. Part XV. The $2e^-$, $2H^+$ bicubic scheme (Meunier-Prest, Laviron) 33
Pulsed light
Application of pulsed photoelectrochemical detection (Barisci, Wallace) 195
Radiotracer study
Radiotracer study of the adsorption of a tripeptide on a smooth gold electrode (Horányi et al.) 311
Rate constants
A note on the evaluation of homogeneous cross-exchange electron-transfer rate constants (Phani, Sangaranarayanan) 321
Reduction
Oxygen reduction in acid media: influence of the heat treatment on the FeNPc(1–2) isomer mixture impregnated on carbon blacks and active charcoals (Biloul et al.) 219
Electrochemical reduction of CO_2 at Cu + Au electrodes (Kyriacou, Anagnostopoulos) 233
SECM
Scanning electrochemical microscopy. Part 13. Evaluation of the tip shapes of nanometer size microelectrodes (Mirkin et al.) 47
Self-protonation mechanism
Electrochemically induced isomerization of 1,1,4,4-tetra- phenyl-1,2-butadiene to 1,1,4, 4-tetraphenyl-1,3-butadiene: an indirect self-protonation mechanism (Vincent, Peters) 63
Silicon
Potential dependence of the interfacial impedance of p-⟨100⟩ silicon in KOH (Abbott et al.) 355
Silver
Determination of silver with polymer-modified electrodes (Lorenzo, Abruña) 111
Ethyl xanthate chemisorption isotherms and E_h–pH diagrams for the silver + water + ethyl xanthate system (Woods et al.) 179
Silver electrode
Observation of photon correlations in scattering from a silver electrode (Gaigalas, Reipa) 99
Solvation
Application of the mean spherical approximation to the estimation of single ion thermodynamic quantities of solvation for monoatomic monovalent ions in aqueous solutions (Fawcett, Blum) 333
Space variables
Space variables well fitted for the study of steady state and near-steady-state diffusion at a microdisk (Amatore, Fosset) 21
Spectroelectrochemical cells
Theory and application of analytical spectroelectrochemistry with long path length spectroelectrochemical cells. Part I. Integral equation connecting the absorbance with the concentration distribution and its use in digital simulation for long path length thin layer spectroelectrochemical cells (Wanzhi et al.) 9
Stability
Stability and electrochemical properties of reconstructed Pt(110) (Michaelis, Kolb) 341
Steady-state diffusion
Space variables well fitted for the study of steady state and near-steady-state diffusion at a microdisk (Amatore, Fosset) 21
Surface reaction
Electrochemical reactions with protonations at equilibrium. Part XV. The $2e^-$, $2H^+$ bicubic scheme (Meunier-Prest, Laviron) 33
Tetraphenylbutadiene
Electrochemically induced isomerization of 1,1,4,4-tetra- phenyl-1,2-butadiene to 1,1,4, 4-tetraphenyl-1,3-butadiene: an indirect self-protonation mechanism (Vincent, Peters) 63
Tin(II)
Kinetics of electroreduction of tin(II) at mercury in dimethylformamide solutions (Manzini, Bulhões) 1

Tin oxide
Photoelectrophoresis of colloidal semiconductors. Part III. Transient experiments on SnO_2 particles (Boxall, Kelsall) 75
Tip-shape evaluation
Scanning electrochemical microscopy. Part 13. Evaluation of the tip shapes of nanometer size microelectrodes (Mirkin et al.) 47
Tripeptide
Radiotracer study of the adsorption of a tripeptide on a smooth gold electrode (Horányi et al.) 311
Tyrosinase
A novel biosensor elaboration by electropolymerization of an adsorbed amphiphilic pyrrole–tyrosinase enzyme layer (Cosnier, Innocent) 361
Water
Ethyl xanthate chemisorption isotherms and E_h–pH diagrams for the silver + water + ethyl xanthate system (Woods et al.) 179
Water–1,2-dichloroethane interface
Competitive transfer of H^+ and Li^+ ions through the water–1,2-dichloroethane interface mediated by 1,10-phenanthroline (Yudi et al.) 153
Zinc electrodeposits
Some effects of cell dimensions on zinc electrodeposits (Trigueros et al.) 165
